

## COMPANY SPOTLIGHT

# GA INFRA

## DELIVERING INTEGRATED INFRASTRUCTURE SOLUTIONS WITH DIVERSIFIED EXPERTISE

Gajendra Agarwal  
Founder & M.D.

Services for water and irrigation infrastructure hold immense importance in India. Efficient management and distribution of water resources are vital for meeting the domestic and industrial water needs of the country. Reliable water and irrigation infrastructure services ensure access to clean drinking water, and sanitation facilities, and support various industries. Additionally, well-maintained infrastructure helps mitigate water-related disasters, such as floods and waterlogging, leading to improved public safety and environmental sustainability. By ensuring the efficient utilization of water resources,

these services contribute to the overall socio-economic development and well-being of the Indian population

GA Infra, founded in 1994, offers unswerving sustainable water solutions to address its clients' evolving needs. The company has established itself as a dependable and trusted player owing to its substantial experience and strong track record in executive water supply projects. GA Infra has access to sufficient resources, is financially stable, and offers top-notch customer support. The firm has experienced multifaceted, exponential growth with a rising success rate. Numerous states, including Rajasthan, Haryana, Uttar Pradesh, and Delhi are included in the company's geographic reach.

### Operational Excellence

GA Infra distinguishes itself from competitors in the market by offering dependable and environmentally friendly infrastructure solutions. Water management and seamless treatment plants are both offered by GA Infra. However, the company sees stormwater management, building construction, and energy management services in diversified segments and offers operational maintenance for projects, whether they are solar projects or water supply projects. GA Infra is a business that prioritizes the requirements of its customers. The company places a high value on creating enduring relationships with its customers. With a focus on customer service and the growth of trust, sustainability, and innovation, GA Infra identifies clients who will benefit most from overland communication throughout the project lifecycle as part of its customer-centric strategy. The company is concentrating on implementing smart solutions for all slowly innovative approaches in the position of conversation, adopting cutting-edge technologies, and acting as an environmentally responsible provider.

The company has a slew of energetic expertise teams, including teams for project management, technical specialists, supply chain management, procurement, and operation and maintenance. It is all about the entity's inclusive project managers and technical specialists for

## SERVICES PROVIDERS FOR WATER & IRRIGATION INFRASTRUCTURE

work in wastewater treatment, stormwater management, and water treatment. GA Infra has civil engineers, structural engineers, mechanical engineers, and other engineers whose expertise enables the company to design or execute complex problems more quickly.

**GA Infra's culture & core values are built on doing business ethically & honestly**

### Looking Ahead

Along the way, GA Infra will combine technical know-how, effective project management, and a dedication to client satisfaction through a multi-tenant strategy. The business,

which began with the solar bore well project and continued with the NMCG and JJM, a prestigious mission of the Indian government, is a highly regarded business partner in the sector. They are organizing water supply projects and STP projects under these missions. At the moment, GA Infra is the first business to begin construction on the National Metro Rail Knowledge Centre, DMRC, Delhi.

“Currently we will be managing all national tendering for client projects and work on water supply projects, but in the future, we plan to enter the irrigation sector and work on canal and river projects as well to help with water management”, concludes Gajendra Agarwal, Founder & M.D, GA Infra [in](#)
